

ProPERLA Wood Impregnator is a water based water repellent for all vertical wooden surfaces including fencing, log cabins, wooden gates, exterior wooden beams and exterior wood fascia. ProPERLA has a special chemical composition that reacts and actively bonds to wooden surfaces.

Key Features:

- Based on the latest nanotechnology
- Scientifically engineered to protect wood surfaces by active binding
- Specifically designed for roofs and walls
- Extremely water repellent and self-cleaning
- Obstructs discoloration
- Minimises shrinkage
- Reduces growth of microorganisms
- 10 year manufacturers guarantee

Recommended for: For use on all vertical wooden surfaces.

Preparation: The surface needs to be dry, clean and free from contamination.

Apply directly on surfaces less than one year old.

Older surfaces must first be cleaned thoroughly with a pressure washer or deepEX Powerbrush before treatment.

Application: Use low-pressure pump, sprayer, brush or roller. A minimum temperature of 5 °C is needed.

Recommendation: Always make a test coat to ensure the compatibility of product and surface.

Drying time: Approx. 1 hour at 20° C and 60% RH.

Coverage rate: 100-200 ml per m² depending on surface porosity

Equipment care: Cleaned up in water directly after use.

Storage: Store dry and frost-free. Keep out of reach of children. Shelf life 24 months (in original sealed container).

Packing sizes: Can 25 litres.

Colour: Colourless when applied.

Thinning: Undiluted
