# Repair & Restore

A technologically superior textured wall coating

Actively Binds      Highly Breathable

Quick & Convenient

## Quick & Hassle-Free

ProPERLA Textured Basecoat removes the need for large-scale rendering work, providing a quick, convenient and cost-effective alternative.

It can be applied as easily as paint, allowing either small isolated areas or full exterior walls to be transformed with a new, blemish-free appearance.

This also significantly saves time compared to traditional rendering methods, minimising the hassle and inconvenience caused from work carried out on your home.

## Optimal Performance

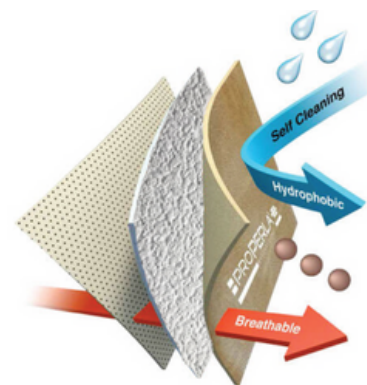

Contains our highly advanced nano-technology and has been scientifically engineered to actively bind to surfaces it is applied to, creating an extremely strong chemical bond for long-term durability in all weather conditions.

## Create Any Textured Finish

ProPERLA Textured Basecoat can create a range of textured finishes from light texture to rough texture using various application methods. This allows a range of masonry surfaces to be repaired and restored with a seamless finish that is ready to paint.

ProPERLA Textured Basecoat can:

- Cover cracks and other imperfections
- Marry new and existing surfaces together

## Breathable

With an SD value of 0.04, ProPERLA Textured Basecoat has no restriction on air & moisture escaping the surface, ensuring your home stays warm & dry.
